Search

300,000 digital resources arranged by context, readability, and aligned with standards.

Grade Level Tabs
Click Elementary, Middle or High to focus context of search for selected grade level.

Search Views
Quickly search for websites, famous people, images, and standards by entering a keyword and clicking Web, Person, Image, or Standards Search View.

Keyword Search
Enter a keyword or phrase to return a set of relevant and high-quality search results.

Subject Search
Drill down through the curriculum areas and subtopics to relevant subjects. A trail of the topics selected is displayed and can be chosen to broaden subject search.

Current Events Search
Link to major newspapers, magazines, and other news media sources from around the world.

Standards Search (top right)
Locate correlated resources that align with your standards to facilitate lesson planning.

Advanced Search
Focus search by content type, website source, language, ratings, and curriculum within the context of specified keywords or phrases.
Organize

Integrate

---

**Timeline**
View a dynamic Timeline of events, famous people, arts and innovations, across a time span or era. Focus on a specific period of history to view an interactive account of famous people or significant events.

**Famous Person**
Search for an individual by entering all or part of a name, or create a list of people based on criteria selected from Gender, Time Period, Occupation/Profession, or Ethnic/Cultural Heritage.

**Image Search**
Search for safe, school-friendly, copyrighted images corresponding to a keyword or phrase to use in multimedia projects or classroom presentations.

**References**
Gain access to grade level relevant reference tools such as Encyclopedias, Almanacs, or subject assistance tools useful in conducting research or homework help.

**Teacher Tools**
View support materials and classroom resources specific to education including topics of special interest to teachers, such as Classroom Management, Professional Development, and Special Education.
DIFFERENTIATE resources by using our unique set of valuable teaching and learning tools to refine your search and find just the right resource to differentiate instruction for EVERY student in your school community.

Refinement Menus
Refine your search by Subject, Learning Aid, Multimedia, Readability, Language, or a specific Collection from our Content Partners to include only those resources that contain a particular type of content.

Readability
Target your search results to find content at appropriate reading levels as designated by the relative difficulty of written text on the resource.

Read Aloud
Provides text-to-speech support for highlighted text on pages, search results, and dictionary definitions. Select a passage of text with a mouse to hear the text read aloud through the computer’s speakers or headphones.

Dictionary Hot Key
Provides instant access to definitions and translations. Click the Dictionary button to launch the dictionary-enabled version of a search result. Preferences allow you to customize the default dictionary or translation setting.

Find resources from netTrekker d.l.’s highly valued Content Partners by using the Collections refinement menu.
Organize

Integrate

DIFFERENTIATE resources by using content focused on developing skills and literacy to meet the challenges of ALL students if they are to be successful in the global economy of the 21st Century.

**English Language Learners Channel**

Designed for English Language Learners and Teachers. Use the ELL Skill Development path for sites to increase language development, fluency, higher order thinking, and problem solving skills. Use the Multicultural Pavilion for cultural and geographical information on continents, countries, and regions.

**ELL References**

Specialized reference tools for English Language Learners and students learning foreign languages. The diverse list includes language and translation tools from across the globe.

**21st Century Skills Channel**

Prepare your students for the 21st Century with background information on the new standards, links to web based tools, and 21st Century Integration Models. Use 21st Century pathways to focus on topics for Life Skills, Learning and Innovation Skills, and ICT Literacy.
**Students and teachers** alike enjoy the robust features of netTrekker d.i. This chart displays the added functionality of the Teacher Role.

**My Portfolio**
Quickly save only those items that meet your search objectives, logically organize your saved resources, and collaboratively share them.

**Search**
Search netTrekker d.i. resources for engaging lesson plans, videos, audio, images, learning games, podcasts, and manipulatives.

**Save**
Save Web resources, Famous Person Lists, Timelines, Standards, and Images to My Portfolio.

**Update**
Update Saved resources with a folder title and description, or add saved resources to an existing folder in My Portfolio.

**Class Portfolio**
Share resources with a selected set of users allowing participation with designated view and update rights.

**Create Class**
Teachers can create a class of selected resources to share with students.

**Join Class**
Students can join a class to access shared resources selected by their teacher.

**Students and teachers** can save Web resources, Images, Famous Person Lists, Timelines, and Standards to My Portfolio.
**Organize**

**Folders** are used to organize resources in My Portfolio. They are managed through the use of the buttons in the My Portfolio box. **Folder-related buttons** located immediately under the folder title bar function on the currently open folder. **Item-related buttons** located above and below the folder contents function on the selected items in the folder.

**Arrange**

- **New Folder**: Create a new folder within the folder you are currently in to create a folder structure to organize items.
- **Move**: Move selected items to a new location removing it from its original location.
- **Copy**: Copy selected items to a new location.
- **Delete**: Remove selected items within your portfolio or your school or district portfolio.

**Collaborate**

- **EMail**: Email the current folder to another netTrekker d.i. subscriber within your school or district.
- **Move**: Move selected items out of your portfolio to share into a class or your school or district portfolio. The item will assume the rights of the new location.
- **Copy**: Copy selected items from your portfolio to share into a class or your school or district portfolio. The item will assume the rights of the new location.
- **Bookmark**: Bookmark a folder from your portfolio to the school or district portfolio retaining control of the folder contents and user rights in your portfolio. Bookmark a folder from the school or district portfolio into your portfolio for easy access.

**Supervise**

- **Create subject or special interest folders in the District Portfolio to support curriculum collaboration**
- **Create grade level folders in the School Portfolio to organize shared resources**

**Integrate**

**Arrange**

Students and Teachers can organize items into folders of related topics using folder and item related functions.

- Create a directory structure to manage My Portfolio items.
- Dynamically add, locate, or remove items in My Portfolio.

**Collaborate**

Teachers can share selected resources from their portfolio to students, a class, a school, or entire district.

- Send saved web resources to a teacher, student, or parent.
- Share Web resources, Famous Person Lists, Timelines, Standards, and Images to a district, school, or class portfolio.

**Supervise**

Administrators can create folders and set user rights in the school and district portfolios.

- Create a directory structure to organize district and school resources for students and teachers.
- Assign view rights for users on district and school portfolio folders.
- Assign change rights for users on district and school portfolio folders.
INTEGRATE
Create a single repository of digital resources by combining resources from the internet and 3rd party subscriptions with netTrekker d.i. resources. Seamlessly integrate your access to netTrekker d.i. with many market-leading programs.
