IV. Open Issues

Old Business

AESOP – Greg Mones – conversation with Tom Meyer to give access to administrative assistants. Should have done by February. Will require some training, and teachers will still need to inquire if they’ve not heard anything. Still no “sent” receipt.

Transition – If equipment was purchased for a course, and the course will no longer be offered at that school, then equipment will most likely move. If it’s building, it stays in the building.

Policy revision – tabled to February (open issue)

Transition – “Purple” and “White” for 9th grade teams. Divided by geographical lottery. Elementary zones (after examining FRL) were used to divide 9th grade into teams, which will be used for their SLC,

athletics, etc. More information located on the Board minutes from the December meeting.
